FOR IMMEDIATE RELEASE

Date: April 29, 2008

Suffolk Police are currently staffing a neighborhood re-entry program for the purpose of allowing residents of Burnett's Mill to assess the condition of their properties. Re-entry teams will be staged at Kings Fork Middle School beginning at 11 a.m.

Residents of that subdivision will be escorted to their residences by police. If the residence is deemed safe for entry, residents will be allowed thirty minutes to evaluate damages and collect items for personal needs, at which time they will be escorted back out of the area.

Access will be limited to two residents per house. Identification, listing an address in the effected area, will be required. Those interested in being escorted to their residence should meet with the re-entry team coordinator at Kings Fork Middle School.

This opportunity is only for the residents of Burnett's Mill at this time. Inspectors are working to evaluate other areas so that similar arrangements can be made.
